Cluster Workshop Programme
Cluster 3: Effectiveness, Capacity and Legitimacy
First Cluster Meeting

Scope of the meeting

The aim of the meeting is to get to know each other and the individual projects and discuss conceptual, methodological and practical issues of common concern.

Each project is expected to submit a short paper (to be circulated two weeks in advance) briefly presenting not only the project and maybe some first findings but also addressing some key concepts. This brief progress report should address the following issues:

- How do you exactly define new modes of governance?
- What kind of new modes of governance you empirically look at and how you intend to study them?
- Conceptual issues
- Methodological approaches
- Specific case studies already done or planned for the future.
- Brief presentation of your team work.
- What kind of problems have you encountered so far, how do you deal with them, and what do you plan ahead?

The meeting will include a 20 minutes presentation by each project leader and approx. 10 minutes discussion.
